**Outdoor Kitchens**

## OUTDOOR KITCHENS MODERN DESIGN, PREMIUM FINISHES

Entirely made of AISI 304 (18/10) stainless steel or AISI 316 (marine grade) stainless steel, perfectly suited for outdoor use—even in areas highly exposed to corrosion, such as seaside locations.

Equipped with BBQs, lava stone grills, induction or gas cooktops, and other outdoor appliances, these kitchens can feature lacquered (painted) doors or porcelain stoneware countertops as alternatives to classic stainless steel surfaces.

Characterized by a clean and elegant design, with either handles or integrated recessed grips in the steel modules, they are optionally available with special scratch-resistant and fingerprint-proof finishes for the top (orbital / vintage / brushed), making them easier to clean and more resistant to wear over time.

**Embrace the best,  
get the best!**
